THE SUBVERSIVE ACTIVITIES OF THE AMERICAN INTELLIGENCE SERVICE AS REPORTED
IN THE DAILY MIRROR

New York, November 14 (Tass). The Daily Mirror newspaper has published an article by the conservative American journalist, Fulton Lewis, accusing the Central Intelligence Agency of the USA of supplying funds for the activities of the so-called Committee for Free Europe, which controls the activities of Radio Free Europe, an organization which engages in subversive and slanderous broadcasting against the countries of the People's Democracy. The role of this radio station in organizing the counterrevolutionary revolt in Hungary by the imperialists is well known.

The Central Intelligence Agency of the USA, writes the author, is an espionage organization headed by Alan Dulles. It secretly defrays about three-quarters of the funds needed for expenditures by the Free Europe Committee. However, Dulles does not want this fact to be known. The author complains that "not a single Congressional commission has the right to investigate the activity of the Central Intelligence Agency."
